# **Write My Story**

Written by Joshua Luke Smith, Dani Miché-Whiting, Kara Smith, Josh Miché-Whiting Even Now Album I Recorded Key: E

#### Verse 1:

I've been searching blindly,

Trying to find my way back home

Whilst I was chasing shadows,

You were faithful to my soul

### **Pre Chorus**

You remind the very depths of who I am when I forget,

Once again my head is turned to you

All I've seen and all I know, surrenders to and bows below,

The beauty and the majesty of you

## Chorus:

I love you oh my father

How I love you oh my Lord

I lay my life before you

Write my story with your words

#### Verse 2:

In my hollow striving, vacant pining to be known You see me and complete me you're the anchor of my soul

## **Bridge:**

I can't live off what my hands can build me,

I can't live off what my eyes can see,

6

I can't live off what this world can give me,

Only you can fill my soul and set me free
